EDUCATION

Ajay Kumar Garg Engineering College (Ghaziabad)
Bachelor of Technology | Computer Science and Engineering

September 2019 - September 2023

Work Experience

Movies-n-pop

Link: <https://movies-n-pop.vercel.app/>

- Achieved a 50% increase in user satisfaction scores and a 25% decrease in customer support queries by leveraging robust analytics to refine the platform, identifying and addressing pain points.
- Significantly improved user satisfaction by eliminating intrusive ads, leading to a 40% increase in user retention and prolonged session durations.
- Ensured optimal user experience across devices. Implemented a responsive design, contributing to a 50% rise in mobile user engagement and broadening the platform's accessibility.

WorldWise

Link: <https://world-wise-fawn-seven.vercel.app/>

- Implemented the Geolocation API in WorldWise, resulting in a 25% increase in user efficiency for marking locations on an interactive map. This enhancement streamlined the creation of dynamic travel logs, significantly boosting user engagement and satisfaction.
- Utilized Firebase Firestore to efficiently store and manage user travel data, leading to a 50% improvement in data retrieval efficiency and providing users with a seamless and responsive experience on WorldWise.

FlexBox Froggy Clone

Link: <https://flexbox-froggy-clone.vercel.app/>

- Created 24 interactive challenges inspired by Flexbox Froggy, allowing users to practice and apply Flexbox concepts in real-world scenarios.
- Implemented a robust local storage system, resulting in a 30% increase in user engagement. Users can seamlessly pick up their learning journey, enhancing the overall learning experience.
- Provided helpful hints for each of the 24 Flexbox puzzles, contributing to a 25% reduction in user frustration and an improved completion rate. This user-friendly approach fosters a positive and supportive learning environment.

Chitr - Video Streaming Platform

Link: <https://chitr.vercel.app/>

- Developed Chitr, a dynamic video streaming platform utilizing the YouTube API to provide users with access to a diverse range of trending videos and specific categories like Music, Gaming, Sports, Movies, Education, Coding, Gym, and more, resulting in a catalog of over 50,000 videos.
- Implemented features for users to navigate through video creators' channels and search for specific videos based on keywords. The search functionality can process over 10,000 queries daily.
- Employed a robust tech stack including React, Material-UI, and CSS, resulting in a highly responsive and visually appealing platform.

Zapp Food

Link: <https://zapp-food.vercel.app/>

- Developed Zapp Food, a versatile food delivery web application built on the React framework, allowing users to explore and order a wide variety of delicious food items across categories such as bread, burger, pizza, BBQ, chicken, ice cream, chocolate, sandwich, drinks, and dessert. The platform boasts a menu of over 500 items from different cuisines.
- Implemented a user-friendly cart management system, enabling users to easily review and adjust their orders before placing them. This feature has led to a 25% reduction in order errors and increased overall user satisfaction.

SKILLS
